

PORTABLE UNBLOCKING UNITS

CJ-1E

CJ-2B

CJ-1E

The **CJ-1E** is a high-pressure mobile unit ideal for cleaning and unblocking **30 to 120 mm** pipes or pipelines. Equipped with 4-pole **2.2 kW electric motor**, it can be used inside homes or commercial premises for unblocking sinks and toilets, as well as garden sumps. The **LW-K Comet** pump with **Easy Start** and **Pulse** device, provides utmost reliability and washing efficiency.

The CJ-1E can be used in both vertical and horizontal mode and the **Total Stop** device switches it off when not in use. The sturdy plastic casings and the large wheels make it extra strong and easy to move about.

CJ-2B

The **CJ-2B** is a professional high-pressure mobile unit for washing and unblocking **40 to 200 mm** pipes and pipelines. Ideal for cleaning and servicing sewage pipes and domestic pipes, cesspools, tanks and industrial drains. The powerful **8.7 kW petrol-driven Honda motor**, together with the Comet **TW PREMIUM pump** featuring a gearbox, provide very high performance and reliability over time.

This unit represents the **OPTIMAL** solution for professionals seeking an effective, efficient and adaptable machine capable of operating in heavy-duty conditions, thanks also to the sturdy steel frame, and large wheels with tyres.
